Definitions

Minority and/or Women Business Enterprise

A Minority and Women Business Enterprise is a business that is at least 51 percent owned, controlled and actively managed by minority and/or women group members who are United States citizens or persons lawfully admitted to the United States for permanent residence.

The business must be a for-profit business and currently be performing a useful function.

Minorities – United States citizens or permanent residents who are African Americans, Asian/Pacific Americans, Hispanic Americans, Native Americans, Subcontinent Asian Americans, or as defined herein:

African (Black) Americans. All persons having origins from any of the Black groups of Africa and all persons having origins in any of the original peoples of the Cape Verde Islands.

Asian/Pacific Americans. All persons having origins from any of the original peoples of the Far East, Asia, or the Pacific Islands, including China, Japan, Korea, Samoa, Philippine Islands, and Hawaii. Guam, the U.S. Trust Territories of the Pacific or the Northern Marinas.

Hispanic Americans. Persons having origins from any of the Spanish-speaking peoples of México, Puerto Rico, Cuba, Central or South America, or the Caribbean Islands.

Native Americans. All persons having origins from the original peoples of North America and who are recognized as Native Americans by a tribe or tribal organization.

Subcontinent Asian Americans. All persons whose ancestors originated in India, Pakistan or Bangladesh.

Certification - A determination by the OMWBE that a for-profit business entity is a Minority Business Enterprise (MBE) and/or Women Business Enterprise (WBE).

Definitions

Ownership

The minority or woman ownership interest in the firm must be real, substantial and continuing and shall go beyond the pro forma ownership of the business as reflected in its ownership documents. The minority and women owners shall enjoy the customary incidents of ownership and shall share in the risks and profits commensurate with their ownership interest as demonstrated both by an examination of the substance and form of arrangements.

Control

Control will be exemplified by possession of the requisite knowledge and expertise to run the particular business. Control includes the authority to determine the direction of a business, including but not limited to capital investments and all other financial transactions; property acquisitions; day-to-day decisions; contract negotiations; legal matters; selection and hiring of officers, directors, and employees; operating responsibility; cost-control; income and dividend matters; and the rights of other shareholders or partners.

The minority and/or women owners must hold the highest officer position in their companies, example chief executive officer or president.

The minority and/or women must demonstrate that they possess the experience, expertise and knowledge to operate their particular types of business.

Expertise limited to office management, administration, or bookkeeping functions unrelated to the principal business activities of the company is insufficient to demonstrate control. Women and/or minority owners must also verify that they hold any licenses or certification required by the type of business in which they are engaged.

Definitions

Minority Business Enterprise (MBE) - A for profit business in which at least 51% of the beneficial ownership interest and control are held by a minority or minorities. In the case of a corporation, minorities must hold at least 51% of voting interest.

Minority & Women Business Enterprise (MWBE) - A for-profit business in which at least 51% of beneficial interest and control is held by minority women or by an equal combination of minorities and women. In the case of a corporation, women and minorities must also hold at least 51% of voting interest.

Women Business Enterprise (WBE) - A for-profit business in which at least 51% of beneficial interest and control is held by women. In the case of a corporation, women must also hold at least 51% of the voting interest.

Useful Business Function

A useful business function is one, which results in the provision of materials, supplies, equipment or services to consumers in the State. A business acting as a conduit to transfer funds to a non-minority business does not constitute a useful business function unless doing so is a normal industry practice.

Benefits of Certification

Current certified minority and/or women owned firms are eligible to be listed in the State of Delaware Directory of Minority and Women Owned Businesses which is circulated to all state and local government agencies.

Recertification

At the ends of three years from original certification date, firms must submit the recertification affidavit to remain actively visible in the State of Delaware's Minority and/or Women Business Enterprise database.

Eligibility

A minority and women owned business (sole-proprietorship, partnership, corporation or joint venture) must meet the following criteria:

- a) Belong to a minority group: African Americans, Asian/Pacific Americans, Hispanic Americans, Native Americans, and Subcontinent Asian Americans.
(Please reference above definitions)
- b) At least 51 percent owned, controlled and actively managed by minority group members or by women.
- c) Serving a for profit business with "useful business functions."
(Please reference above definitions)

Reasons for denial *(please note the below may include but not be limited to)*

- a) A business located in a state other than Delaware must first obtain state-level certification in its home state, if such certification is available. "Home state" is defined as the state the company's headquarters are located.
- b) All securities, which constitute ownership and/or control of a corporation for the purpose of establishing it as a MWBE, must be held directly by minorities or women. No securities held in trust, or by a guardian for a minor, shall be considered as held by a minority or women in determining the ownership or control of a corporation.
- c) If the business operations do not reflect the ownership shown on paper.

- d) Firm is not a for-profit business
- e) Firm has provided false or misleading information
- f) Control will not be deemed to exist in cases of simple majority or absentee ownership, or when a non-minority/non-female owner or employee of the firm is disproportionately responsible for its operation.
- g) The firm shall not be subject to any formal or informal restrictions through, for example through, by-laws provisions, partnership agreements, or charter requirements for cumulative voting rights or otherwise that prevents the minority and women owners, without the cooperation or vote of any owner who is not a minority or women for making a business decision of the firm.
- h) If the owners of the firm who are not minorities or women are disproportionately responsible for the operation of the firm, then the firm is not controlled by minorities and shall not be considered as MWBE within the meaning of the definition. Where the actual management of the firm is contracted out to individuals other than the owner, those person who have the ultimate power to hire and fire the managers, can, for the purpose of this
